DELIVERY OF ACADEMIC COURSES

As a response to the challenges of the pandemic, Ateneo updated the international academic experience through its Online Learning Exchange Program (OLEP), eliminating the risks of travel abroad. For the past 2 years, our university has offered OLEP and hosted students from partner universities. Then, on 25 January 2022, we are happy to share that our Loyola Schools campus in Quezon City was issued a Safety Seal to certify its compliance with standards for face-to-face (F2F) classes. Now, in this recovery period, we synergize on-site exchanges with the convenience of virtual programs through our new learning models of **limited F2F classes**.

In the **Flex** learning model, students choose to participate on-site or remain online. This will be done through a rotation of student batches, wherein certain batches of students (16 at most) will be allowed to be on-site, while others will remain online at a given time. Learning activities in a Flex class can be synchronous or asynchronous depending on the strategies used by the teacher.

In the **Online+** learning model, courses are still primarily online. However, specific scheduled on-site activities, such as laboratory work, are made available to address an added pedagogical and/or formative value. The

schedule for the on-site activities will be pre-determined and announced to the class. In case some students cannot join the on-site activities, an alternative online activity will be provided for them.

In the **Hybrid** model, the whole class will either be online or on-site, depending on the teacher's design of the course. Courses offered in this model will have a smaller class size which will be kept within the maximum classroom capacity allowed (16 students), following social distancing measures.

Each course is expected to hold at least one synchronous session per week, however the nature of some courses may call for supplementary or alternative arrangements. When necessary, classes can be reverted to a fully online mode.

Learning Management System (LMS)

Upon the recommendation of Ateneo's IT Advisory Council, Ateneo has opted to offer only one LMS primarily in response to feedback from our students. Canvas is largely implemented in Loyola Schools and parts of the Ateneo Professional Schools. **Canvas** LMS from instructure is a cloud-based learning management system (LMS) specifically designed for K-5 on up through higher education institutions. Canvas LMS is a scalable platform that can be used to serve education organizations of all sizes and types, from individual classrooms to large universities, and from blended to fully virtual learning.

Blue Pass

Blue Pass is the system that Ateneo community members, including inbound exchange students, will use to complete requirements for entering the campus. It includes an individual's health record (including health declaration form, vaccination card and status, and lab results). It acts as a digital ID for buildings/facilities they have been approved to access. The system can also be used for contact tracing and booking clinic services. It will generate a Blue Pass (QR code) which the regular student will scan in designated screening areas.

Frequently Asked Questions (FAQs)

1. Can any student attend the limited F2F classes?

Students who wish to participate in the limited F2F classes must comply with certain requirements, foremost of which is that they must be fully vaccinated. Students must also complete their student electronic health record via the Blue Pass system. This serves as the student's digital ID, access key to the campus, and a tool for contact tracing.

2. For the online courses that you will offer, will they be content on documentation, a fixed-time online class or a mix of the two?

The key shifts due to AteneoBlueCloud will be the following: from teacher lectures to student tasks and from taught/contact time to learning hours.

3. Will online courses be synchronous or asynchronous?

The courses will be delivered mainly asynchronously for the benefit of students from a wide range of time zones. However, occasional synchronous classes may be held as needed. In which case, classes will follow the Philippine Standard Time (GMT/UHT+8). Students are advised to check the time difference when they choose the courses and class schedule.

4. Will courses be in English?

Yes, 99% of courses will be taught in English.

5. Will there be an “online orientation program”, where students will be informed about all relevant matters?

Yes, please refer to the schedule above.

6. Aside from the academic classes, will there be online activities for exchange students to participate in?

Yes. The Office of International Relations (OIR) together with the Ateneo Student Exchange Council (ASEC), student arm of the OIR, will facilitate online activities such as Cultural Sensitivity talks, virtual interaction and discussion, and virtual immersion activities.

A student buddy will also be assigned to an exchange student to assist during enlistment, load revision and other school related activities.

7. Is the campus open for other activities?

Outside of classes, students may visit the Rizal Library, use laboratories, and, if urgent, go to the Office of Guidance and Counseling for psychosocial needs. Availment of campus resources must be pre-approved during this time. Students must secure approval from their teachers, counselors, or the library to enter the campus for these activities. Medical and psychosocial consultation may also be scheduled online.

Note: Border and campus access and course modalities are subject to change. We will keep you updated on any future changes.
