Courses	<u>OVERVIEW ENGLISH COURSES</u> After admission FEB KU Leuven exchange students will receive a final list of available courses. These courses are part of degree programmes entirely or partly taught in English. A full time study load per semester is typically 30 credits. We recommend taking 24-30 credits with a minimum of 18 credits. Students can decide to live in Leuven or Antwerp, but follow classes in Brussels and vice versa. However, students can take up 6 ECTS at another campus. The course offer differs per campus: • Antwerp campus has management and business courses mainly on a bachelor level, for example in Finance, Accounting and Harbour Logistics. Groups tend to be small and teaching hands-on. • Brussels campus has a strong focus on Business Administration and Management (both bachelor and master entirely in English with additional minors). • Leuven campus has a smaller offer for bachelor students, but has a large offer for master students with many interesting courses in Economics, Business Economics and Business Engineering.
Orientation	Orientation week is organised mid September and early February, the week before the start of each semester. The orientation week provides practical and academic information to all international students, as well as plenty of opportunity to mix with fellow students. <u>Buddy programme</u> available on each campus. Dutch language courses available on each campus
